**Please join us for an exciting Symposium during the
International Year of the Salmon**

**‘Managing the Atlantic salmon in a rapidly changing
environment - management challenges and possible
responses’**

INTERNATIONAL
YEAR OF THE SALMON

3 & 4 June 2019, Scandic Ishavshotel, Tromsø, Norway

The Symposium will focus on the challenges facing the Atlantic salmon and provide possible responses to these challenges to show what needs to be done to conserve this precious resource in a rapidly changing environment.

The Symposium is structured under two main themes:

1. Climate change and state of the salmon, with scientific overviews being provided on these subjects, and
2. Management challenges and solutions.

Perspectives will be provided from a number of different viewpoints, including managers, scientists, NGOs and Indigenous People.

Participation in finding solutions to the many challenges facing this iconic species is encouraged through discussion, the provision of posters and networking during the event's social activities.

**Registration will be opening early in 2019 and we look
forward to welcoming you to Tromsø.**
